

MARCH 2008

THE WORK CONTINUES TO PROGRESS

SUPPORT. We have picked up more support and now are at 84%. We hope to be between 85-90% by the end of April with actual or promised support.

DEPUTATION. We have been in four states this winter on deputation Wisconsin, Illinois, Iowa and Missouri. These meetings have produced many people at the altar in most places making life changing decisions. The weather conditions have been hard forcing cancellations and being stranded at times.

TRUCK OR CAR NEED. We still need a pickup truck to haul Scriptures for the troops and general hauling. We also need another car for local travel as well. Two of our vehicles went down through accidents or major breakdowns this winter. We are somewhat transportationally challenged.

NEW WEB PAGE. We now have up our new web page. We still have a couple of pages to fill in yet. Also access our "View AFBM Video" button, turn up your speakers and wait to load and watch it. You can view it on the small format or download it and view it full screen on any Microsoft viewing program. See it at:

Family, Early Church Plant Preparation, MEPS, 347th AFRS

ROSALIE. Thank you for your prayers for Rosalie's healing. She is almost 100%. She has been able to meet with some military wives to get to know them and lend a hand in any way she can. She is beginning to learn a little about the military system.

MIKE, JR. Mike is doing well and as a college freshman, taking 20 semester hours, playing football and baseball and active in outside service activities. He made the dean's list last semester for excellent grades.

SARAH. Sarah has ironed out some health problems and is now applying to a mission agency as a missionary. She feels that God has called her to the mission field of Panama.

NEW CHURCH PLANT. This project is still planned for early 2009 if we can finish deputation this calendar year. Please pray for us. We have many needs in this area.

MEPS. The MEPS ministry is going well. I have recommended two men for chaplaincy positions in Fargo, N.D. and Phoenix, AZ. I sent letters to the respective commanders recommending them for their chaplains. As a result these commanders have brought them on

board to minister there. We take no government pay for these positions. It is good to be in contact and help the military staff and inductees. A large percentage of inductees who are offered Bible and Gospel Tracts accept them.

347th AIR FORCE RECRUITING SQUADRON. Lt. Colonel J.J. Jackson leaves as of June of 2008. Please pray that we will get another chaplain friendly commander. I take no pay for my position so they get a free service outside their budget. I was able to attend the Commanders Call in February in Rockford, IL. Lt. Col. Jackson allowed me to speak to the troops. I will also attend the retirement ceremony of our first Sergeant on the 21st of March. I will be giving the invocation at that ceremony and ***I WILL** be praying in Jesus' name!!!* There is no room for compromise for that.
